

TEAM NAME:

The Merdividuals

FLAG:

Agender

SONG LYRIC: These battle lines are
hidden behind... - Peppermint

Concept: Peppermint, a merdividual (an individual whomst is a mermaid), lives underwater. They live peacefully EXCEPT for those who want to gender them!! They must escape the clutches of the Bad mouth eel by adorning differently gendered hats. These allow peppermint to pass through barriers blocking their way so they can escape.

Stretch goals would be:

Whilst wearing gendered clothing, Peppermint suffers from dysphoria, this increases in a bar and when it is full they get dazed and have to stop wearing hats for a while.

ultimately to escape, Peppermint will remove all their hats, and the final barrier they need to pass thru will be Self Acceptance.
